

Are You Frustrated with Acne and Wish You Had Clear, Healthy Skin?

You're not alone. In fact, over 60 million Americans suffer from acne* and unfortunately, many have had difficulty finding a treatment that works.

You may have tried manual exfoliants, harsh chemical peels, over-the-counter cleansers or oral medications for persistent acne, and you are still frustrated with breakouts.

Now There's a Painless Acne Treatment Called Isōlaz®

No matter your age or skin type, Isōlaz deep pore purification is a revolutionary way to help you have a radiant, clear complexion.

Who Gets Acne?

Acne is one of the most common skin conditions affecting people of all ages. It most commonly affects people in their teens, 20s, 30s, 40s and beyond. Untreated acne can cause permanent scarring.

How Does Acne Develop?

Acne is caused by the overproduction of androgens, hormones that stimulate the sebaceous glands causing them to enlarge and increase the production of sebum. This increase in oil production, coupled with dead skin cells, results in blockages in the hair follicle and sebaceous glands.

Acne Treatment with Deep Pore Purification

Effective
Acne Treatment
for Dramatically Clearer Skin

isōlaz

Purify Your Pores From the Inside Out

Isōlaz treatment helps clear existing acne while helping prevent future breakouts for a healthier looking complexion:

- Helps remove blackheads, oils and debris
- Reduces pore size
- Improves skin tone and texture

Why Isōlaz® Acne Therapy?

- Isōlaz clinical studies show immediate results within 24-48 hours, including reduced redness and immediate drying/flattening of the blemish
- 64% of "non-responders" to orals, topicals, and lasers had over 75% clearance*
- Patients had 88% clearance of papular, pustular, comedonal, nodular and inflammatory acne*
- Isōlaz helps jump-start acne treatments by helping your skin absorb topical medicines and moisturizers better

During Your Isōlaz® Treatment

Before: Your skin will be moistened with water before applying the Isōlaz tip. Since the treatment is painless, you won't need pre-numbing!

During: When the Isōlaz tip is placed on your skin, you will feel a painless, warm sensation. The process is repeated over the entire treatment area. In a recent clinical study, 100% of patients reported no pain during treatment. Treatment sensation was most commonly described as being similar to that of a warm massage.

After: There are no post treatment regimes associated with Isōlaz therapy. Once your treatment is complete, you are free to resume your normal activities. In fact, you may find that your skin takes on a healthy glow and feels cleaner right away.

Patient Success Story

"The fantastic thing about the Isolaz product is that the result goes beyond the acne. Your skin feels tighter, your pores are reduced, you have a smooth complexion that you probably haven't felt for years prior to the procedure. It's fantastic!" - Kimberly T., Isolaz patient

Questions and Answers

Will I need to use topicals or other medication?

Ask your Isōlaz treatment expert - you may be asked to use topicals while undergoing Isōlaz treatments.

Does Isōlaz work 100% of the time?

Everyone's skin is different, but studies have shown that 85% of people who have an Isōlaz treatment will experience clearer skin.*

What if I only get a breakout once in a while - Could I still have an Isōlaz pore cleansing acne treatment?

Yes! Isōlaz helps keep your pores cleansed, helping to provide cleaner, more radiant looking skin.

Will I have sensitivity to light following my Isōlaz treatment?

No. Unlike some other acne treatments, the Isōlaz system does not cause sensitivity to light.

Acne Therapy

How Isōlaz® Works

Isōlaz controls acne at the source by providing the only technology to combine vacuum and a painless broadband light.

Place

During an Isōlaz treatment the handpiece is placed on the skin

Activate

A vacuum gently lifts the acne impurities closer to the skin's surface, which helps loosen and extract dirt, blackheads, dead cells and excess oil from deep within your pores.

Treat

A painless broadband light helps destroy acne causing bacteria, sloughing the oils and the dead skin cells away.

Clear

Your skin is left healthier, clearer, and cleaner. Many patients have found their skin feels tighter and has a healthy radiant glow.

Isōlaz® Purifies Your Pores

The vacuum applies gentle pressure on your pores while the broadband light helps destroy the acne causing bacteria, resulting in radiant, clear skin that is purified from the inside out.
